**SYLVIA JACKSON MSP**

*Member of the Scottish Parliament for Stirling*

To Whom It May Concern

07 October 2004

I have been approached by the Carron Valley Development Group regarding their plans to develop a series of forestry trails through the Carron Valley Forest.

I understand that the Group have commenced work on those trails, initially for mountain bikes but with plans to encourage horse trails and walking paths with permission from the Forestry Commission. However in order to continue their work in developing multi user trails, they advise me that they require additional financial support.

Given that users of these trails are likely to come from a fairly wide geographic region including the Stirling area I am writing to ask that every consideration is given to offering whatever support is available to the Carron Valley Development Group.

Thank you for your attention in this matter.

Yours sincerely

**Sylvia Jackson MSP**
