Just professional interest, partic since Grieve's work is new to them.
And to be aware of what's going on in other forests.

Rena

Noted.

Trails will be substantively complete in 2 weeks. Funding for quarry trail knocked back til next months meeting on technicality which is irritating but nothing we can do. Will probably ask to defer to Spring if we are subsequently granted.

Still aiming to get the map info to you this week - how did you leave the branding issue?

I gather Paul is now entertaining a 'high powered delegation' tomorrow (K Bartlett; A Hopkins; C Ross.) Just curious if this is professional interest or if there's another underlying reason?
